EXCERPT FROM MINUTES OF MEETING OF:

MAY 2 3 2024

CERTIFIED TRUE COF Secretary CLU J CLU.

2024 Utility Review and Rate Increase

In the first quarter of 2024, a comprehensive utility review was conducted to ensure it was collecting enough revenue to cover utility operations, maintenance, and capital reinvestment costs or replacement projects. The review revealed that the current utility rates were not sufficiently covering all necessary operational costs. To ensure the Town's utility services are adequately funded to meet the community's needs, the Town will raise utility rates effective July 1, 2024, and customers will see the increased rates on the third quarter utility notice at **the beginning of July.** The Town Council adopted the new rates as per Bylaw No. 2024-01.

What will the rate increase be used for?

The rate increase will cover regular operations, maintenance, capital replacement, and reinvestment costs.

Why is a rate increase needed now?

The Town of Milestone has not conducted a comprehensive utility review in years, even though the cost to provide services has continued to increase. If the rates do not increase, more severe or urgent increases may be needed in the future. To avoid an even larger funding gap and to fund future infrastructure needs, a rate increase, as seen in the utility review, is necessary now. The findings from the utility review can be found in appendix A.

Residential Customers Rate Information

Residential customers can expect to see the water rate increase from \$105.00 to \$158.00 per quarter. The base rate covers 0-9,000 gallons, which did not change. Rates for residential water usage exceeding 9,000 gallons a quarter did not change.

Residential customers can expect to see the flat quarterly rate for sewer decrease from \$90.00 to \$61.00 per quarter.

Residents can expect to see the flat quarterly infrastructure rate increase from \$60.00 to \$83.50 per quarter.

The flat quarterly rate for recycling will increase from \$29.70 to \$33.50 per quarter.

The flat quarterly rate for waste will increase from \$27.78 to \$33.00 per quarter.
